

## Intermediate Landscape Architect

Company name: Friesen Tokar Architects + Landscape + Interior Designers  
Job Location: Winnipeg, MB

Friesen Tokar is an established consulting firm that **provides full architectural, landscape and interior design services** for a variety of project types throughout Canada, in the United States and overseas. Our firm holds *Certificates of Practice* in Manitoba, Saskatchewan, Alberta and Ontario. Established in 1975, the firm has offices in Winnipeg and Calgary.

Our office is a leader in creating sustainable environments and is involved in a wide range of projects. Our prime focus includes academic, healthcare, housing and commercial work. From planning to detailed design and implementation, we provide a full range of services to our clients. The firm's corporate philosophy is to design with impact, lead with teamwork and restore with innovation.

### ***Position***

As an intermediate landscape architect, you are passionate about your work, creative, and display a strong work ethic. You can work well in both a team environment and independently of others and are self-motivated, portraying solid interpersonal and client communication skills. You are able to produce both hand graphic and CAD drawings, and are able to manage project timelines as well as budgets. You have experience in contract administration.

### ***Responsibilities***

- Design, conceptual, schematic and design development
- Contract Documents preparation
- Project planning and management
- Assisting our Contract Administration team
- Client liaison

### ***Skill and Experience Requirements***

- A Bachelor's or Master's degree in landscape architecture
- Minimum of five (5) years office experience in a Landscape Architecture firm in North America.
- Proficiency in AutoCad, Microsoft Office, Adobe Suite and computer file management.
- Strong technical skills including understanding of planting plans, grading plans, and construction detailing.
- Independent work ethic with the ability to collaborate within a multi-disciplinary team which includes architects, interior designers and engineering disciplines.
- Excellent communication and presentation skills required.
- Membership in the MALA or CSLA will be considered an asset.
