

---

All Associate members of the Manitoba Association of Landscape Architects seeking full membership in the Association are required to fulfill two (2) years of an internship program. Work experience during this period is to be documented in the \_\_\_\_\_, available from the MALA office for a prescribed fee.

Associates are encouraged to obtain a balance of experience in all five areas of practice:

- Advisory, Consulting & Pre-design
- Design A (Conceptual Design)
- Design B (Detail Design)
- Contract Administration
- Other Experience

Please refer to *Experience Record* pages for complete details and minimum requirements in the above categories.

Upon completion of internship, all applicants for full membership are required to submit the \_\_\_\_\_, duly completed and endorsed, together with an *Application for Admission [as Member]*, to the MALA office. This material will be reviewed by the Examining Board and recommended to MALA Council for a final decision.

Additional *Experience Record* pages (revised June 2001) may be downloaded from MALA's website, [www.mala.net](http://www.mala.net).
